PROFILE

I'm Nathanim Tadele, a passionate software engineer specializing in MERN stack development, with a strong command of JavaScript and a proficiency in Python.

PROFESSIONAL EXPERIENCE

Freelance Web Developer   10/2022 – present
Self-employed   Addis Ababa, Ethiopia

As a freelance web developer, I gained practical experience by working on various web projects for clients.

During my time as a freelance web developer, I had the opportunity to develop a diverse set of skills. I honed my programming abilities in HTML, CSS, JavaScript, and various web development frameworks(react js, express), allowing me to create responsive and user-friendly websites. Client collaboration became a central part of my work, helping me improve my communication and client management skills. Troubleshooting and debugging code were routine tasks, which strengthened my problem-solving capabilities. I became adept at managing my time effectively, juggling multiple projects while consistently meeting project deadlines. My entrepreneurial spirit shone as I independently secured clients, managed project schedules, and handled all aspects of project delivery, exhibiting resourcefulness and self-motivation.

EDUCATION

Software Engineering Course   11/2022 – present
ALX Africa 🔗   Addis Ababa, Ethiopia

In parallel with my academic pursuits, I dedicated a significant portion of my time to a rigorous 12-month software engineering course at ALX Africa. This intensive program demanded a commitment of a minimum of 10 hours per day and 70 hours per week, reflecting my unwavering dedication to honing my technical skills. Through this course, I delved into advanced topics and practical applications in software engineering, expanding my knowledge in areas such as software architecture, system design, algorithms, and data structures. Moreover, the program reinforced my programming proficiency and allowed me to engage in real-world coding challenges and projects, further solidifying my understanding of software development best practices. The experience at ALX Africa was pivotal in advancing my expertise in the field and strengthening my ability to tackle complex technical challenges, making it a valuable addition to my educational and experiential background.

Bachelor of Computer Science   09/2019 – 08/2023
Gondar University   Gondar, Ethiopia

As a recent graduate of Gondar University with a Bachelor of Computer Science, I have had the privilege of undergoing an enriching four-year academic journey. During this time, I not only gained comprehensive knowledge in computer science but also actively engaged in various extracurricular activities and projects that have significantly enriched my learning experience.

Throughout my university years, I demonstrated exceptional leadership as a team leader for multiple projects. This role allowed me to develop strong interpersonal and project management skills, collaborating with diverse teams to ensure the successful completion of various assignments.

My time at Gondar University not only equipped me with a solid foundation in computer science but also instilled in me a commitment to innovation, teamwork, and problem-solving. These qualities make me a dedicated and capable candidate, eager to contribute to the tech industry's advancement and growth.

SKILLS

Javascript
react js | node js | express js

Databases
MongoDB | MySQL

Responsive Design
HTML5 | CSS3

Python
Django | Flask

PROJECTS

Project Management Web Application   ⊘
One of the standout achievements during my academic journey was the development of a comprehensive MERN (MongoDB, Express, React, Node.js) stack project management software tailored for software companies. This innovative platform incorporated multifaceted features, including task tracking, collaboration tools like video calling and chat, and robust team management functionalities. This project management software aimed to streamline and enhance the efficiency of software development processes. I meticulously designed and implemented features that facilitated seamless project tracking, fostering efficient collaboration among team members, and enabling real-time video communication and chat.

COURSES

Odin Project   05/2021 – 08/2022
Odin Project Team
I have successfully completed The Odin Project, an extensive and rigorous online curriculum renowned for its comprehensive coverage of web development, including front-end and back-end technologies. This self-paced journey equipped me with a deep understanding of HTML, CSS, JavaScript, and full-stack development, honing my skills in both client-side and server-side programming. I actively engaged with hands-on coding exercises and projects, gaining practical experience in creating responsive and interactive web applications. The Odin Project not only enhanced my technical proficiency but also fostered my problem-solving abilities, solidifying my commitment to a career in web development. This accomplishment reflects my dedication to continuous learning and my drive to excel in the dynamic field of software engineering.

RECOMMENDATION LETTERS

Degree Certificate   ⊘   Gondar, Ethiopia
Bachelor of Computer Science at Gondar University

Recommendation Letter by Shumet Tadesse, Lecturer   ⊘   Gondar, Ethiopia
Head, Department of Computer Science

Recommendation Letter by Kibret Zewdu, Lecturer   ⊘   Gondar, Ethiopia

Recommendation Letter by Achenef Behulu, Lecturer   ⊘   Gondar, Ethiopia

English Language Proficiency Letter   ⊘   Gondar, Ethiopia
